### Duration

08/2023 – 01/2025

### Total budget

499,884.99 €

### EU funding

399,987.88 €

### Norwegian funding

0 €

# UrbFRail

The reactivation of inner-urban freight rail hubs enables the effective and environmentally friendly transport of goods to cities, aiming for more attractive cities.

UrbFRail will develop a set of tools that will enable cities to evaluate suitable areas for freight rail hubs and to support their revitalization in collaboration with various stakeholders.

**This #MadeWithInterreg project** helps drive the transition to a green and resilient Baltic Sea region.

Organisations from the following countries cooperate together to make that happen:

Germany, Poland, Sweden

Politechnika Warszawska  
Warsaw University of Technology

Stockholms  
stad

RAIL SWEDEN
